

THE FIFTY-SIXTH CONGRESS OVER

Both Houses Adjourned by Limitation.

RIVERS AND HARBORS

Measure Was Talked to Death by Senator Carter.

EXPOSITION APPROPRIATIONS.

The Bill Giving the One at St. Louis \$5,000,000 Was Passed, but Charleston's Pittance Was Cut Off—The House Clock Was Set Back.

(By Associated Press.) WASHINGTON, March 4.—One of the most notable occurrences in the history of Congressional legislation marked the closing hours of the last session of the Senate of the Fifty-sixth Congress. Senator Carter, of Montana, signalled his retirement from the Senate after six years of brilliant service, by talking the river and harbor bill to death. He occupied the floor, constructively, for nearly three consecutive hours.

At 11:19 last night, after the Senate conferees on the river and harbor bill had reported a disagreement, Senator Carter began his speech. He denounced it as vicious and pernicious legislation.

Shortly before 5 o'clock Mr. Allison submitted a further disagreement on the sundry civil bill, the item in contention being the appropriation for three expositions. From this the Senate receded and then passed the St. Louis exposition bill.

By a vote of 28 to 19 the Senate receded from the Charleston appropriation and the bill was passed.

Mr. Carter resumed his speech finally, announcing at 6:25 that it was his intention not to permit the river and harbor bill to become a law. He yielded the floor only after the Vice-President's ceremony had begun.

CONTINUOUS SESSION. From 10:30 last night the Senate remained in continuous session. The most interesting feature of the session was its receding from its amendment to three expositions, giving \$5,000,000 to St. Louis, \$500,000 to Buffalo, and \$250,000 to Charleston, S. C. Without division the motion of Senator Allison to recede was agreed to.

Then the Senate receded from the Charleston amendment which passed the House as a separate measure. This action passed the bill appropriating \$5,000,000 for St. Louis.

Though suffering from ill health, Senator Vest, of Missouri, had remained in the Senate all night to battle for this exposition appropriation. He said it was not fair to make St. Louis suffer because the House would not make an appropriation for South Carolina.

SHOWED DEEP FEELING. Mr. Tillman showed deep feeling. Congress, he said, had appropriated eleven millions of dollars for expositions and \$250,000 for South Carolina, a small \$250,000.

Mr. Lodge and Mr. Dewey thought that Charleston ought to be treated equally with St. Louis.

The persistence of Senator Butler, of North Carolina, was rewarded during the morning by the passage of a bill appropriating \$600 for damages done during the Civil War to St. John's Masonic Lodge at Newbern, N. C.

Mr. Pittenger, of South Dakota, criticized Mr. Carter's remarks for the latter's acknowledgment of connection with the Philippine Development Company. He argued that both the sundry civil and river and harbor bills ought to fail. He denounced the bill as "strong language."

Mr. Tillman emphatically denied that he had been influenced by any pending legislation. He branded as a lie the statement that he had been so even in account of the river and harbor bill which went back to conference. Mr. Carter continuing his determined attack. Shortly after 8 o'clock the point of no return was made and a quorum was finally obtained at 9:25, and Mr. Carter resumed at 10:30 a recess was taken until 11 o'clock.

Senators Hear and Cockerill were appointed to notify the President the Senate had concluded its business. They shortly returned and announced that the President had no further communication to the Senate.

resolution of thanks for his courtesy and impartiality, offered by Mr. Jones, of Arkansas, delivered a brief but feeling address to the Senate.

At the conclusion of the session of the Fifty-sixth Congress, Vice-President Roosevelt was sworn in and immediately called the Senate of the Fifty-seventh Congress to order. After the new senators were sworn in, the Senate attended the Presidential ceremonies.

At 1:15 the Senate returned to its chamber and adjourned immediately until to-morrow.

In the House.

WASHINGTON, March 4.—The House closed its session at 11:45 today and a demonstration from its members following the delivery of an impressive valedictory by Speaker Henderson. For an hour the body had been in the throes of dissolution, with little business to perform. The galleries were almost empty.

The House had been in session all night with frequent recesses. The postoffice appropriation bill was finally passed shortly after midnight, and soon afterward the sundry civil bill was passed. This left but one of the big supply measures—the river and harbor bill—still unacted upon.

The resolution authorizing a subcommittee of the insular affairs committee of the House to visit Porto Rico, Cuba and the Philippines, to make a report on the conditions existing in those islands, was defeated, 150 to 81.

Hope that an agreement on the river and harbor bill might be reached kept many members present until 7 A. M., when a recess was taken until half past eight. After a half hour another recess was taken until 10, when some routine bills were passed and another recess taken until 11 A. M. Then Messrs. Payne, Grosvenor and Richardson were appointed to wait upon the President and the Senate and advise them that the House was ready to adjourn.

CLOCK TIPPED BACK. Meantime, the House clock had been "turned back" to permit signing of bills. Soon the committee reported the President had no further message to convey.

Shortly before the closing hour, Mr. Richardson presented the minority leader, who presented resolutions, testifying the high regard of the House for the able, impartial and dignified manner in which Speaker Henderson had administered the duties of the presiding officer. Coming from the minority, there was added a strong note of tribute. The resolutions were unanimously accepted by a rising vote. Then the Speaker, in slow and impressive tones, delivered his closing words to the House, thanking the members for their co-operation during the session.

At 11:45 and announced the sessions of the House for the Fifty-sixth Congress adjourned.

The divergencies of usage and of vocabulary—London from Edinburgh, and New York from Bombay—are but evidences of the healthy activity of our tongue, writes Branden Matthews in the current Scribner's. It is only when we are dead that our tongue ceases to grow. It needs to be constantly refreshed by new words and phrases, as the elder trees are exhausted. Lowell held it to be a part of Shakespeare's good fortune that he came when English was ripe and yet fresh, when there was an abundance of words ready to his hand but none of them yet exhausted by hard work. So Mr. Howells has recently recorded his feeling that any one who now employs the phrases thumbed over and worn and blunted with incessant use, and experiences a joy in the bold locutions which are now and again "reported from the lips of the people."

Social and Personal

A very delightful inauguration party was given by the P. L. A. S. yesterday at the residence of Mrs. Myer Kiser. The function was exceedingly unique and attractive. The hall and rear drawing-room were fragrant with American Beauties. The front-room presented a very patriotic appearance. American flags draped the walls, the mantel was festooned in the Stars and Stripes, and in one end of the room was an elaborately decorated dais with Columbia ready to present the presidency to her favored applicant. All about the dais were draped placards and articles suggestive of historic America. The prize, a beautiful etching of the Puritans, was awarded Mrs. J. J. Marouse. For the game of the Presidents, the first prize was won by Mrs. Morton Rosenbaum. The fees and cakes were red, white and blue, and the national colors were carried out in detail.

A most attractive tea was given at the Woman's Club yesterday from 5 to 8 o'clock. All during the calling hours the rooms were thronged with visitors. At 11:30 the guests were invited into the dining-room, where an elegant supper, consisting of all the delicacies of the season, was served. The prevailing colors were pink and green. The table was decorated in pink and green. The tablecloth was of pink satin, upon which rested a vase of pink carnations.

The young ladies were given dainty little souvenirs of sachets, tied with the prevailing-color ribbons, while the gentlemen were given heart-shaped boxes of bonbons, tied with the same.

Miss Alice Taylor entertained several of her friends last Saturday evening, the occasion being her sixteenth birthday. One of the features of the evening was a literary hour, in which each person present was given questions pertaining to the authors of noted books and quotations.

Miss Mittie Points received the prize, which was a beautiful book of quotations, for answering the greatest number of questions correctly. Another feature, which added greatly to the amusement of all, was a donkey party. Miss Florie, of Cartersville, the prize, which was a box of delicious candy, and Miss Mittie Points the booby prize.

Music, recitations and many games were indulged in till quite late, and the last of the evening was a mock marriage. The bride and bridegroom were attired in the wedding costumes of the hostess' parents, and the ring used for the occasion was that used by the mother of the hostess. After these amusements dainty refreshments were served.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently in all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had eczema on my hands and face for five years. It would break out in little white pustules, crusts would form, and when the skin was raw and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one months ago she had a cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and he is now well.

RELIGION AND THE STATE.

A Word About Sunday Observance and Religious Liberty.

A paper discussing "Sunday Observance and Religious Liberty," lately prepared by the Executive Committee of the Baptist Ministers' Conference of Richmond and adopted unanimously by it, is of so important a nature as to be beyond that particular religious communion.

It seems that one of the chief officers of a national society for the protection of Sunday had made addresses in Richmond, in which he took the ground that it is the duty of the State to protect the Christian religion, and that the State, accordingly, has the right, and it is its duty, to enact laws for the protection of Christian institutions as such, though not to discriminate between different Christian sects. The paper presented by the Baptist Committee for the Executive Committee of the Religious Herald of that town, combats that view vigorously and successfully and breathes a spirit of liberty and of about the same democracy refreshing to an American, mere especially as it comes from a denomination which is strict in its observance of Sunday as an imperative religious obligation.

The paper starts out by taking the ground that "the State has no right to legislate in connection with a holy and religious day," but must confine its laws with regard to it to the purely secular considerations that as a day of rest and of devotion to the State has a right that it is desirable and necessary. If it is to be protected by the State as a religious duty, as an institution of the Christian religion, "why," asks the reporter, "limit legislation to the mere maintenance of the sanctity of the day?" As a Christian institution, the duties of worship and of active Christian work are not less obligatory. Why, then, should the State be asked to ignore the Christian ideas of religious work and worship? Moreover, the Jewish Sabbath is a religious day from the Sunday of the Christian.

Thereafter the paper proceeds to deal with the assertion, in the name of a Christian nation, that by denying it squarely and presenting historical evidences to prove its case. As the committee says, we are a Christian people, in the sense that the great majority of our people are either actively or nominally sympathetic with the Christian religion, and that as a Christian nation in the sense that we have a right to impose by law distinctive religious principles on others. The religious principles of Christians are in our laws, "not because Christ taught them," but because they are generally accepted as "eternally and unchangeably binding on all men." The Decalogue are enforced by our laws, not as a religious obligation, but as a moral obligation, and as a basis for the preservation of the social organization. To go farther and pass laws on the theory of a religious obligation, is to attempt actually to introduce a unity of Church and State which is subversive of the Christian religion. If, as a Christian nation, we should support one Christian institution, why not another? Why "invoke State support for the Christian Sunday and not for Christian baptism?" If

BEST SPRING MEDICINE.

The Palm Given to Dr. Greene's Nervura.

That Grand Jury, the People, Have So Decided.

Used by Hundreds of Thousands in Spring as a Blood Medicine.

Dr. Greene's Nervura blood and nerve remedy is indeed "The World's Great Spring Medicine." It has come to be recognized by almost everybody as the best possible spring medicine to take, and hundreds of thousands of our people use it during the trying spring months, to tone up anew the relaxed nerves, and re-invigorate and enrich the blood.

A spring medicine is a necessity if one wishes to keep in perfect health and vigor during the changes from winter to summer. This grand spring tonic, this perfect spring medicine, Dr. Greene's Nervura blood and nerve remedy, is exactly what the system needs at this season. It not only purifies, but makes rich, red blood; it not only strengthens and invigorates the nervous system, but re-energizes and revitalizes the nerves by feeding them with renewed nerve force and power. It is not only an aid to digestion, but it creates a regular, natural and healthy action of the bowels, liver, kidneys, which in the spring are always sluggish and inactive.

In fact, it is just what people need to make them well and keep them well during these months, so threatening to the health of all, and when it is considered that Dr. Greene's Nervura blood and nerve remedy is made entirely from pure, health-giving vegetable remedies, and that people give it more testimonials of cure than any other remedy on earth, no one can doubt that it is the very best spring remedy for everybody to use.

Mr. Gustave Lebach, of 337 First St., Jersey City, N. J., says:—"I was troubled with sick headaches, and could not sleep on account of the pains in my head. I was suffering night and day with dyspepsia, could not eat anything, my stomach would sour. I had to starve myself to have any ease. I had to give up work at last, I was so nervous and miserable, and I was falling away in flesh so that my friends hardly knew me. I tried several remedies, but without avail. At last someone recommended Dr. Greene's Nervura blood and nerve remedy. I tried one bottle and began to improve. I started in to eat all right; then I picked up my health; my headaches disappeared, and my weakness and sour stomach went away. I used three bottles, and could sleep all night with ease; I used six bottles, and felt like a new man. I can now do a hard day's work without any trouble, and I am as happy as a bird in spring. I was so miserable, always suffering, always in pain, but now I am like a new man. I use Dr. Greene's Nervura blood and nerve remedy this spring, for it is the discovery and prescription of a well-known physician, Dr. Greene, of 35 W. 14th St., New York City, who is responsible for its beneficial action, and who can be consulted free of charge, personally or by letter.

PREPARE FOR SPRING.

TAKE DR. GREENE'S NERVURA BLOOD AND NERVE REMEDY.

THE BEST SPRING REMEDY TO TAKE FOR YOUR BLOOD, NERVES, STOMACH, LIVER, AND KIDNEYS.

Cured of Sleeplessness, Dizziness, and Palpitation of the Heart.

MISS. DAVID DOUGAN, Elizabethtown, N. Y., says:—"I have used Dr. Greene's Nervura blood and nerve remedy for three years. I have been troubled with palpitation of the heart, dizziness, and sleeplessness, and during this time I tried several kinds of medicines without good result."

Cured of Dyspepsia and Spring Debility by Dr. Greene's Nervura.

MR. VERNON L. SMALL, who is a teacher of South Deer Isle, Me., says:—"In the spring of 1899, owing to close application to mental work and indoor confinement, I became afflicted with nervous dyspepsia to such an extent that I was obliged to give up the work in which I was engaged. I was completely run down and could eat scarcely anything. A prominent physician whom I consulted told me that I was on the road to nervous prostration. On the advice of a friend I began taking Dr. Greene's Nervura blood and nerve remedy, and after taking three bottles my health was greatly improved. I was able to resume work again, and could eat anything without its hurting me. I would recommend Dr. Greene's Nervura blood and nerve remedy to all and I often advise people to use it."
